

INCORPORATED VILLAGE OF MUNSEY PARK

CESSPOOL PERMIT APPLICATION

1. A cesspool permit must be obtained from the Village Clerk, **BEFORE BEGINNING CONSTRUCTION** of a new or replacement cesspool.
2. Application must be accompanied by a diagram of the proposed size and location of the pool, including Certificate of Liability, Disability & Compensation Insurance, Nassau County License fee of \$250 plus deposit of \$1000 or submit a bond to cover damages caused by applicant.
3. Cesspools shall be located in the front yard. House traps connecting to the cesspool must be located as close to the entrance wall as possible.
4. Cesspools shall be precast type, eight feet (8') in diameter, with precast dome. All underground piping shall comply with the Plumbing Code of New York State.
5. The minimum depth below the inlet pipe shall be fifteen feet (15') and such depth as will reach a satisfactory coarse sand stratum, subject to the approval of the cesspool inspector.
6. The outside walls of the cesspool shall have at least eighteen inches (18") backfill of coarse gravel, broken stone, or coarse sand.
7. The access cover of the cesspool shall be a maximum of two feet six inches (2' 6") a minimum of two feet (2') below grade. The cesspool opening shall be fitted with a concrete cover not exceeding three feet (3') in diameter and shall be at least four inches (4") thick.
8. No cesspool shall be built or maintained within twenty feet (20') of any building, ten feet (10') of any side or rear line of any inside lot or property, nor beyond the front line of any line of any lot or the side line of any corner lot or property.
9. No cesspool or surface basin shall be installed until the excavation and plan of installation has been inspected and approved by the cesspool inspector.
10. All cesspool, leaching pools septic tanks, etc. which are abandoned or discontinued shall be backfilled with clean sand or gravel.
