

HISTORIC MUNSEY PARK WALK

May 7, 2022

2-3pm

Meet at Park Avenue and Munsey Place

For the first time ever on Long Island, Manhasset will be an inaugural participant in the internationally-renowned festival called Jane's Walks. This groundbreaking free event encourages people to connect with their neighbors over their shared community history in honor of Jane Jacobs, the visionary urbanist and social reformer. This walk will discuss the establishment of Munsey Park as a residential development, its unique architecture, place alongside William Levitt's Strathmore, and the continued vitality as a desirable place to live. In conjunction with the 200th anniversary of the birth of Frederick Law Olmsted in 2022, the Olmsted Brothers-designed landscape will also be explored. The tour will be led by Andrew Cronson, Municipal Historian for the Village of Munsey Park and incoming student at Columbia University.

Please note that masks are strongly-encouraged at this time. The event will be held rain or shine unless hazardous weather occurs. For more information, please email ac7071@nyu.edu.
